Jo Anne,

I greatly appreciate your efforts to provide an opportunity to comment and believe the revised notice largely address my original concerns. I just have a few minor suggestions in redline in the attached.

To help consolidate responses, I worked from the redline prepared by counsel for CCL and SACE. I suggest that the top caption match the docket caption and have a few minor language suggestions in the body of the description of the tariff. The biggest substantive change in that is the sentence added to describe that current customers are credited at the full retail rate for excess electricity exported to DESC's system. This suggestion is just to make clearer the current practice in the same framing as the proposed (i.e., as compensation or credit rate for excess electricity exported to the grid).

Again, I greatly appreciate your attention to this and for providing the opportunity to respond.

Jo Anne:

Thank you for the opportunity to comment. Attached are some minor non-substantive edits in redline. The Notice as drafted is accurate and provides adequate and sufficient notice to both existing net energy metering customers and non-participating customers. We will stand by for you to provide the final clean version of the tariff for us to proceed with printing.

Matt

Thank you, Jo Anne. We will await further instruction from the Commission.

In response to Vote Solar's objections, I would simply note that Commission-directed notices provided to customers frequently include what the Company asserts about its filing, i.e., "The Company states..."

And, in regard to the subsidy issue, the Notice as drafted does not make any factual assertion about the existence of a subsidy. Rather the Notice carefully tracks the provisions of Act 62 which requires the tariff be designed to eliminate subsidies to the greatest extent practicable.

Subject: [External] Re: DN 2020-229-E

Good afternoon Jo Anne,

Since this request for language was directed to Attorneys Gissendanner and Burgess, I did not feel compelled or invited to weigh in on the contents of the notice. Now that the notice has been published, I do feel compelled to express my concern regarding the contents of the notice to the extent that it expresses advocacy positions and factual assertions by Dominion that remain open questions in this proceeding. My concern is that the presence of the PSC's seal on this document creates the impression that these are the Commission's own words, assertions, or findings.

My request is to rescind the notice and upon re-issuance to: (1) make clear that the language provided is from Dominion and does not represent the views or findings of the Commission and (2) strike any portions of the notice that make factual assertions regarding the existence of a subsidy or the degree to which the solar choice metering proposal does or does not mitigate the same.

I would be happy to draft a formal letter request providing a redline or identifying objectionable portions of the notice in greater detail. Please advise.

Attorneys Gissendanner and Burgess:

Please provide the following information as soon as possible – but not later than 4:30 p.m. today -- related to the Solar Choice Metering Tariff, DN 2020-229-E, which will be incorporated in the Notice to customers:

1. A signal to the reader of the Additional Notice in the heading or caption including words to indicate specifically the type of adjustment or impact the filing could potentially have on customers. See guidance provided in Order No. 2019-214;
2. A summary or explanation of the Solar Choice Metering Tariff proposed by DESC to include the rates and charges proposed (Subscription fee and any minimum charges); and

3. A summary or explanation of how the proposal impacts existing net metering customers and non-participating customer.

Thank you.
